## ANIMAL HOUSE FACILITY

Drugs and pharmaceuticals need to be tested on animals prior to human administration. Therefore, a Pharmacy college need to maintain a well equipped Animal House Facility for enabling the students to study the effect of drugs on animal models. In line with this requirement, our College maintains a well equipped Animal House, set up and maintained as per the guidelines of CPCSEA (Committee for the Purpose of Control and Supervision on Experiments on Animals). The facility is manned by well trained staff and supervised by duly qualified and experienced Faculty members. The area is used for breeding and carrying out experiments required for regular UG and PG practicals as well as specialized experiments conducted by students for their PG research work (Projects). The animal house is backed by a well equipped Pharmacology laboratory. Experiments are conducted and used / dead animals are disposed off strictly as per the guidelines of CPCSEA. Our Animal house maintains several species of animals such as mice, rats, guineapigs, and Rabbits. The facility comprises of wash area, animal feed store, animal cages, etc. The animals are segregated in separate areas for breeding and experimentation. The animals being used for different experiments are separated and properly labeled and their lists are maintained. Students need to take prior approval from the IAEC (Institutional Animal Ethics Committee) for all experiments involving animals as per the CPCSEA guidelines.

## ACADEMICS AT A GLANCE

### Methodology

The attendance and performance of the students are monitored continuously and regular class test are conducted (at least two in each semester) and appraisals with attendance percentage and marks are sent to parents. The college offers both in depth theory and intensive practical class in all the major operational subjects as per MAKAUT syllabi.

### Student Mentoring System

A robust mentoring system is developed at Bengal School of Technology. The system involves monthly meeting between the deputed faculties (Mentors) with the students. All aspects of the academic and other related developments of the students are noted and the improvement areas for each of the students are individually discussed.

### Financial Aids and Facilities

The institute has made arrangements with the banks for providing educational loans, available to the eligible candidates. Railways concessions are provided for the students of the institute. Merit-cum-means scholarship for minority students is provided through WB Govt. Minority cell. Eligible PG students are provided GPAT scholarship from AICTE. Entertainment facilities like cable television, indoor and outdoor games are also provided to the students.

### College Registration

Each student shall have to register his/her name at the beginning of each semester, failing which his / her name will not appear in student registrar

## RESEARCH & DEVELOPMENT CELL

Research and Development is an important area of our civilization, without its successful implementation on long term basis it will be quite impossible to combat against the devastating infectious as well as life-threatening diseases. Today what we are enjoying in our day to day life as facilities starting from electronics goods to medicines all are the blessings of scientists or technologists who have invented these by their hardwork and intelligence. Any ordinary student becomes extra-ordinary by repeatedly doing ordinary work that means practice makes a man perfect. It is true that being a professional people if we can focus on the research and if the outcomes of the research may be very simple, or it may be negative also, yet it can create a lot of sense/impact to the society, nation as a whole to the globe.

Keeping all the above incidences in mind, R & D Cell of Bengal School of Technology has been formed by consisting of Senior, experienced professor and young, dynamic, energetic faculty members those are actively involved in undergraduate, postgraduate & doctoral research supervision not only as a first step of NBA accreditation process, but also to correlate the theoretical knowledge acquired by our beloved pupils with its practical implementation and to motivate them for performing research or to create keen interest towards research for better socialism. Presently the committee consists of senior professors with long research experience and young energetic faculties of the college.

To inculcate the research atmosphere in the Institution the R & D Committee organizes seminars, Guest talk, Finishing school, etc. The seminars were highly attended by delegates from our Institution as well as from neighboring pharmacy colleges and universities from other state also. Our R & D Committee is always ready to organized more seminars, conferences and workshop with eminent, renowned Scientists or with hardcore academicians.

## INDUSTRIAL INSTITUTE PARTNERSHIP CELL

The students of the institution after passing out are chiefly absorbed by the Pharmaceutical industry. Hence there is always a need to build strong partnership with local and national companies of repute in order to gain an advantage by the student as their prospective employees. In order to cater to this need, BST has an Industry-Institution Partnership Cell, consisting of Senior Professors who had a wide range of experience and exposure in the principal areas of pharmaceutical business operations and has served the industries at the higher positions for decades. The cell also looks after the arrangement of placement for outgoing students, summer internship of current students and organizes industry visits for the UG & PG students. The committee comprises of full time faculty members of our Institution.

The cell actively arranges summer training for students in industries during 2015 -16 such as Bengal Chemicals & Pharmaceuticals Ltd., Dey's Medical Stores Ltd., Caplet India, Albert David Ltd., Pasteur Laboratories, Gluconate Health Ltd., Indian Druga & Pharmaceuticals, East India

Pharmaceuticals Works Ltd., Palsons Derma, Diamond Drugs Pvt. Ltd., Stadmed Pvt. Ltd. and Standard Pharmaceuticals Ltd.. Outside the state the training has been arranged at Micro Labs Ltd., Wockhardt, Hetero Drugs, Zydus Cadila, Medopharm, Alkem Laboratories Ltd. and Drakt Pharmaceutical Pvt. Ltd. to name a few. It is also responsible for a catalytic role in improving industry institution understanding through holding seminars and lecture series from industry experts.

Under the stewardship of IIPC the students do regularly visit local Pharmaceutical Industries like Stadmed Pharmaceuticals Ltd., Standard Pharmaceuticals Ltd., East India Pharmaceutical Works Ltd., Bengal Chemicals & Pharmaceuticals Ltd., Dey's Medical Stores Ltd. etc for a firsthand experience about the working of pharmaceutical industries. The committee also actively seeks consultancy work from industrial houses to enhance the industry-institution bonding. Beside these, it also connects with the various hospitals and Clinical Research Organizations for employment.

## WOMEN CELL & E-CELL

### Women Cell

The Institute has established a Women Cell in the college campus for the women faculty, staff and girl students, to enhance understanding of issues related to women and to make the college campus a safe place for them. With an aim of creating awareness of their rights and duties the cell organizes and participates in seminars, talks and also takes up women's issues and problems. It also provides a platform for women to share their experiences and views regarding their status in the society and to suggest ways to improve and empower themselves. Aiming at intellectual and social upliftment of the female students, the cell stands for facilitating women's empowerment through guest lectures, seminars, awareness programmes life skill training programmes, entrepreneur training and other welfare activities.

### Entrepreneurship Development Cell (E-Cell)

The Entrepreneurship Development Cell at Bengal School of Technology was conceived in the year 2016 to develop the entrepreneurial ecosystem in the campus. It caters to all the students of the college and has Tie up with knowledge partner National Entrepreneurship Network (NEN) since then, our students have completed Government courses in Entrepreneurship namely (WF-NEN 100 and WF-NEN 101) respectively. The college has also put together on display the innate Entrepreneurial skills of the budding students during the Entrepreneurship Week which was held between February 10 to 16, 2018. The program registered about 250 student participants from the college itself and was a grand success and acclaimed throughout by National Entrepreneurship Network (NEN). The E-Cell of the college is also in the process of applying for Grants from various national agencies. Since inception the E-Cell of the institute has received attention and encouragement from one and all as well as NEN.

## TRAINING & PLACEMENT CELL

The Training and Placement Cell is a vital organ of the institute. It acts as a link between industry and the students. It arranges practical training for 3rd year students, which is stipulated under their academic curriculum. The cell has the responsibility to invite the future employers of the students. The whole placement process is organized and executed by this cell. The campus interviews are held under the supervision and jurisdiction of this cell and the relevant feedback is obtained from the industry. The cell has kept a close liaison with many companies in the country.

The cell also arranges career talks for dissemination of knowledge regarding the employment opportunities in the industry related to the relevant fields and interests of the students. It keeps record of the students who undergo training and the companies which come for recruitment.

The Training & Placement Cell firmly believes in 'Industry-Institute Interaction'. In order to accomplish the same, it organizes seminars and talks to provide a platform for the budding engineers to interact with professionals from various industries. It encourages visits to the industries by the institute students and arranges industrial problems to be worked out by students as part of their projects. It also takes suggestions from members of the industry regarding designing/changing of curriculum. The institute has signed MOUs with many pharmaceutical industries.

## CORE ALUMNI OVERVIEW

### Susmita Panja

Senior Drug Safety Associate (level 2), BIOCLINICA, Mysore

Way back to 2013, I had no clear vision of the future, I was too young to know what I wanted to know in my life, luckily I got admission in Bengal School Of Technology as a B.Pharm fresher where I had the most caring, supportive, and understanding teachers. I want to Thank to my honorable teachers from Bengal School Technology. It would never be happen without their support, help, encouragement and motivation, their guidance helped me to be sucessfull not only in academics but in life.

### Tina Chakraborty

Pharmacovigilance Associate, Quintiles, Bangalore

Four years studying at BST was undoubtedly an unforgettable period in my life. The experienced faculty of BST provided me a great learning experience. Started as a fresher but came out as someone ready to face the corporate world.

### Narul Hasan

Dept. of Production and Member, Sun Global Operation Team

As per my own experience the college has well maintained infrastructure along with library, laboratory, Hostel, Animal House, Medicinal Garden, Canteen and modern classroom. Faculties are highly experienced. One can get exposure of industry by working in so many projects offered to the students. Proper industrial training is also given to students which helps them to get placed in reputed Pharmaceutical companies.

### Ayan Barik

Sales Executive, Hindustan Unilever Limited

My 4 years spent on BST under guidance of faculties who created a positive vibe in campus is nothing short of impressive. Apart from education we had other avenues like Women's Cell, Photography Club to showcase our talent & an Active Alumni Association for guiding the juniors. Thank you BST

### Pradyot Kumar Roy

Pursuing Ph.D at IISER, Mohali

The academic experience with best infrastructure and excellent faculty at "BST" has endured me with a lifelong carrier excellence. The excellent teaching methodologies by senior faculty members help me to enrich my theoretical as well as practical skill along with lot of industry interface have given me the confidence to pursue my carrier ahead as a researcher in the field of pharmaceutical sciences and drug development.

### Ayan Gope

Research Scholar, Multimodal Imaging and Computation for Theranostics Lab, School of Medical Science and Technology, Indian Institute of Technology, Kharagpur.

Having spent the 6 best years of my life (Bachelors' and Masters') at Bengal School of Technology, the teachers, Lab associates, the students have shaped me as I am today and nurtured my academics as well as extracurriculars. Now, having qualified both GATE and GPAT, I am a Research Scholar at Advanced Technology Development Centre, IIT Kharagpur, working on Biomaterials in regard to wound healing.

### Nikhil Kumar

Pursuing PhD, Department of Biomedical Engineering, IIT Hyderabad

BST to me is a vibrant ecosystem for a Pharma enthusiast. My 6 years of being of part of this family nurtured by the dynamic educators has inspired me to take up a career on pharmacological research and its translation. Wherever I go in future, BST will always be my foundation.

## ADEQUATE FACILITIES

There are separate hostels for boys and girls, as well as a nice playing area, and even a canteen and cafeteria. Both hostels contain sufficient gymnasium equipment for boys and girls in order to maintain a healthy lifestyle. Every year between January and February, the Institute hosts the Annual Sports Meet to improve mental toughness, health, and leadership skills. Outdoor and indoor games are introduced, each with its own fixture and team identity, in order to run the tournament with a formal prize presentation ceremony. Every year, the institute's students, with the help of teachers, arrange a Fresher's Welcome event (Genesis), an Annual Culture Fest (Inferno), and a Reunion (Nostalgia). These tactics are used at college to inspire learners to be more creative, to explore their ideas, and to improve their interactions with their classmates and professors.
